Empower your students to read, study and learn independently.

- ✓ Access the curriculum
- ✓ Read and learn independently
- ✓ CPD accredited training for teachers
- ✓ Free up time to connect with students
- ✓ Succeed at school and build skills for life

Make Learning Accessible

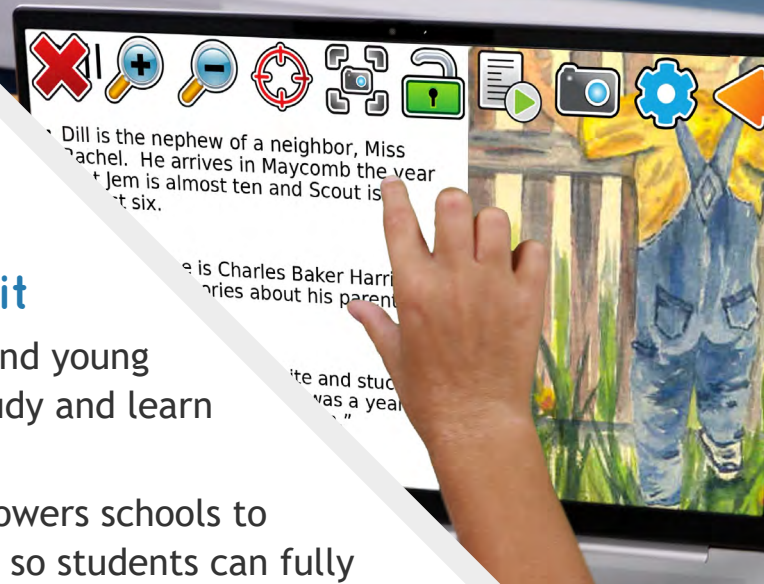

About SuperNova Education Kit

SuperNova Education Kit enables children and young people with vision impairments to read, study and learn independently.

This complete assistive technology kit empowers schools to provide an accessible learning environment so students can fully participate in their learning throughout the school day.

Enable your students to view the teacher's whiteboard, read their curriculum material, complete their schoolwork and study for their exams in a way they find accessible with customisable magnification and speech.

SuperNova ensures your students with vision impairments are equipped with the tools and the skills they need to use throughout school, and take these with them into higher education and the workplace.

Boost self-esteem and confidence

“All the students love the SuperNova Education Kit! It provides access to the curriculum and helps them develop skills they need for higher education and the workplace”

C Thomas, Specialist teacher for children and young people with vision impairments

“Before SuperNova Education Kit, I spent hours photocopying worksheets into large print. Now my students just connect and view in SuperNova”

Clare Harris, Teaching Assistant

“It's made me feel so much more independent”

Iona Wilkinson, SuperNova Education Kit user

A school day with SuperNova Education Kit

View Classroom Whiteboard

Enable your students to sit anywhere in the classroom and view the teacher's whiteboard on their laptop screen in a way they find accessible. The Dolphin Whiteboard Assistant makes it easy for teacher's to share their presentation with students.

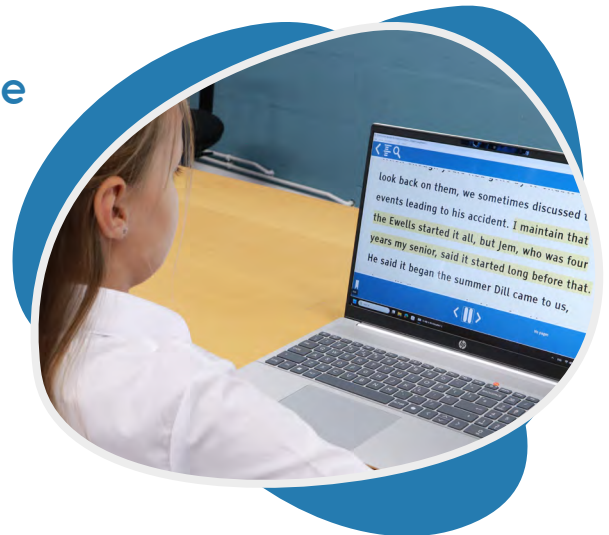

Complete printed worksheets

No more last-minute photocopying! With SuperNova Education Kit, students can independently access printed worksheets. Use the camera to view the documents on screen, zoom in, change colours, listen to text and annotate school work. Then save and print, or send directly to the teacher via email.

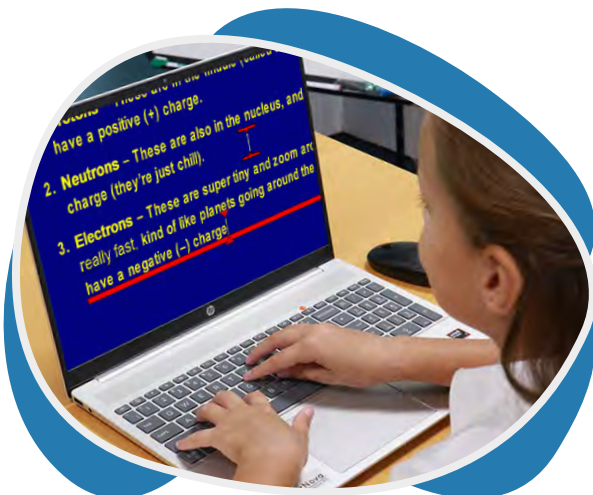

Curriculum material made accessible

Give your students direct access to textbooks, novels, revision guides and more. SuperNova includes an EasyReader Personal Plan, providing over a million education titles from RNIB Bookshare, classroom material shared by their teacher, and enables students to continue reading at home on their iPad or Android tablet.

Complete work independently

Students are empowered to study and complete assignments independently. SuperNova Education kit builds skills for life by providing access to the same Windows applications used in higher education and the workplace - including Microsoft 365, Google Docs, web browsers and more. Empower your students to succeed at school and prepare for future study and employment.

Reasons to choose SuperNova Education Kit

✓ Supports Independence

Empower your students to independently complete assignments, exams, classwork and homework.

✓ Portable and discreet

Fits neatly inside the backpack included. It's lightweight, easy to carry and quick to set up at the start of each lesson.

✓ Prepare for the future

Helps young people with vision impairment to gain the confidence and skills to succeed in education and beyond.

✓ Empower teachers

Spend less time at the photocopier, and more time supporting students with their learning. Free CPD-accredited training ensures you have the confidence to help students use their assistive technology.

Included in the Education Kit

- 16" Touchscreen laptop
- SuperNova Magnification & Speech software
- HoverCam with protective bag
- Wireless mouse and earbuds
- Backpack

Also Available:

- Software and Camera Kit
- Software only
- Education Kit with Tablet, formerly 'Connect & Learn'
